Mind Over Machines Delivers Integrated End-to-End Business Management Solution to Pak-Sher

Large wholesale distributor selects Sage MAS 500 ERP with Accellos Warehouse Management Software (WMS) and SageCRM.

Austin, TX—October 2, 2008— Mind Over Machines announced today that Pak-Sher, a manufacturer of plastic packaging used in the restaurant, grocery, and food service industries has selected Sage MAS 500 ERP as its new business management solution, and Mind Over Machines to implement the solution.

"We had been using Macola, which did not provide adequate reporting tools and lacked the effective integration capabilities we need to interface with our other business management software," said David Motley, CFO at Pak-Sher. "We considered Microsoft Dynamics NAV and an upgrade to our existing software. Ultimately, we chose Sage MAS 500 for its powerful reporting, forecasting and inquiry tools, scalability, and extensibility."

Pak-Sher sought a single source solution to handle accounting, warehouse management, distribution, and customer relationship management functions, finding that solution in Sage MAS 500 teamed with Accellos WMS and SageCRM.

"It is a complete end-to-end business management solution, and we are confident in Mind Over Machines' ability to implement this solution for us," said Motley. "Their experience in the distribution industry combined with their product knowledge makes them a good fit for us."

"Pak-Sher is a successful corporation with ambitious growth plans," says Lloyd Smith, president of Mind Over Machines. "This new solution will support and facilitate that success and growth by delivering the strategic information Pak-Sher needs to make informed business decisions. We are pleased to be part of this company's future."
